DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 89-323 are rejected under 35 U.S.C. 112, second paragraph, as being rejected under undue multiplicity of the claims, as set forth in MPEP 2173.05(n). Applicant has presented an unreasonable number of claims in view of the nature and scope of applicant's invention, which are repetitious and multiplied with a net result of which is to confuse rather than to clarify.

3. A telephone call was made to John E. Larson on 5/20/02 to request an oral selection of claims to be examined, but did not result in a selection being made. Applicant is advised that the reply to this action/requirement to be complete, must include **a selection of claims no to exceed 60 claims**, for the invention to be examined on its merits even though the requirement be traversed.
